About Us

Our mission is to create and craft fences with high aesthetic appeal that last decades and require little care.

We have decades of experience in woodworking with a true bent toward what is aesthetically appealing, visually balanced, and structurally sound.

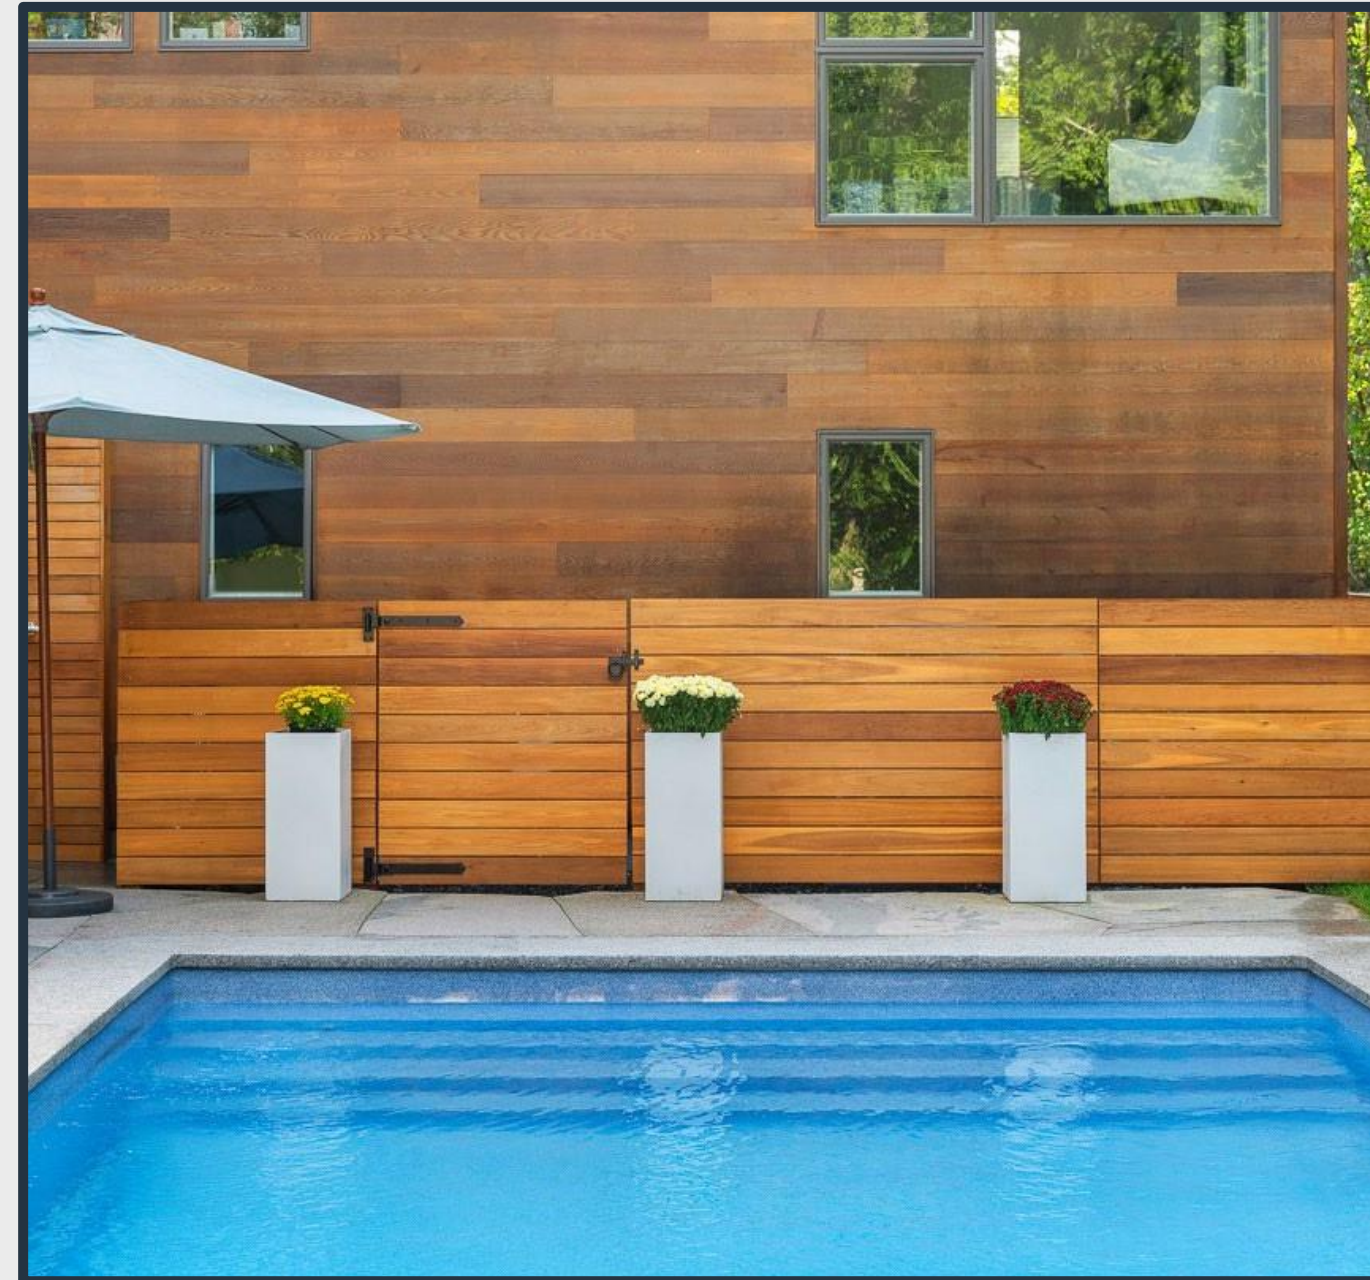

We work with discerning homeowners, landscape professionals, builders, and architects to create unique outdoor living spaces.

NEW ENGLAND CEDAR FENCE

About Stephen Huntoon - Founder

I found my calling in life at a young age. I grew up in suburban New York with a father who was a builder and a mother who was a landscape designer. Their passions rubbed off on me and I combined my parent's two skills and started a New England fence company in 2010.

By connecting these creative capabilities, I knew there was a better way to build a fence than the cookie-cutter fence styles and shiny, creaky vinyl that was being offered. Here at New England Cedar Fence our specialty and sweet spot is knowing how to design, craft, and install fences to each customer's needs.

I have been a spokesperson appearing on PBS's This Old House and The Victory Garden. I work best with those who appreciate a collaborative approach to designing your outdoor spaces. Contact us so we can help you with your next project.

What we do

Our fences are crafted in southern New Hampshire using the finest quality Western Red Cedar plus other high-quality species such as Alaskan Yellow Cedar, Meranti, Douglas Fir, and Sapele. We offer professional installation and white glove delivery throughout New England and the surrounding areas, as well as nationwide freight shipping.

We tailor your fence to your specific needs, whether you have a sloped property, existing structures, or require a garden or pool fence. We've got you covered!

Client Testimonials

Applying semantics to the phrase Words Have Meaning is especially relevant as it relates to our recent summer of '23 relationship with Stephen Huntoon, owner of the singular New England Cedar Fence - the "Fence As Art" company (NECF), and his engaging team of highly talented, dedicated, experienced, thoughtful craftsmen-builders who think outside the box in applying creative excellence to everything fence.

-Peter & Charlotte, Manchester-by-the-Sea, MA

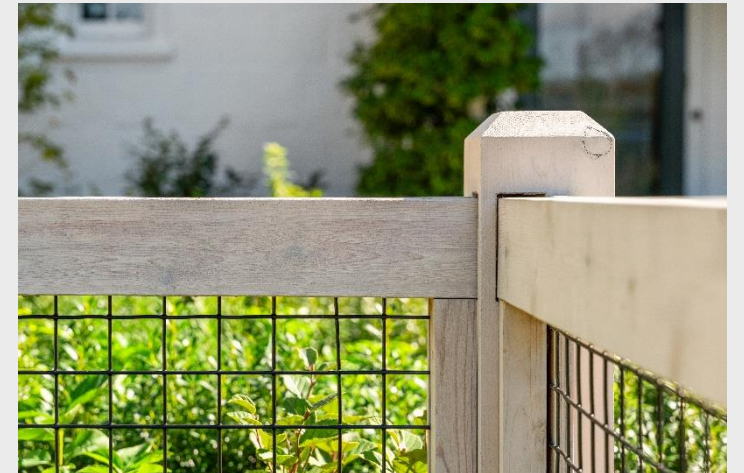

New England Cedar Fence has done an outstanding job for us! They did a beautiful custom designed post and rail fence around the perimeter of our property a few years ago. They took my design and made a demo section that we worked together on to get the dimensions exactly right for the look I wanted. Stephen is very professional and easy to communicate with. I highly recommend New England Cedar Fence!

-Jackie, Exeter, NH

New England Cedar Fence company lives by their motto...they make fences as artwork! We replaced our old, picket fence this past spring and could not be happier with how it turned out. The craftsmanship, functionality and professional installers were all top notch. Neighbors and people walking by our fence continue to stop and comment on how great it looks! Stephen and his team were a pleasure to work with and we highly recommend New England Cedar Fence company to anyone looking to upgrade their yard and property.

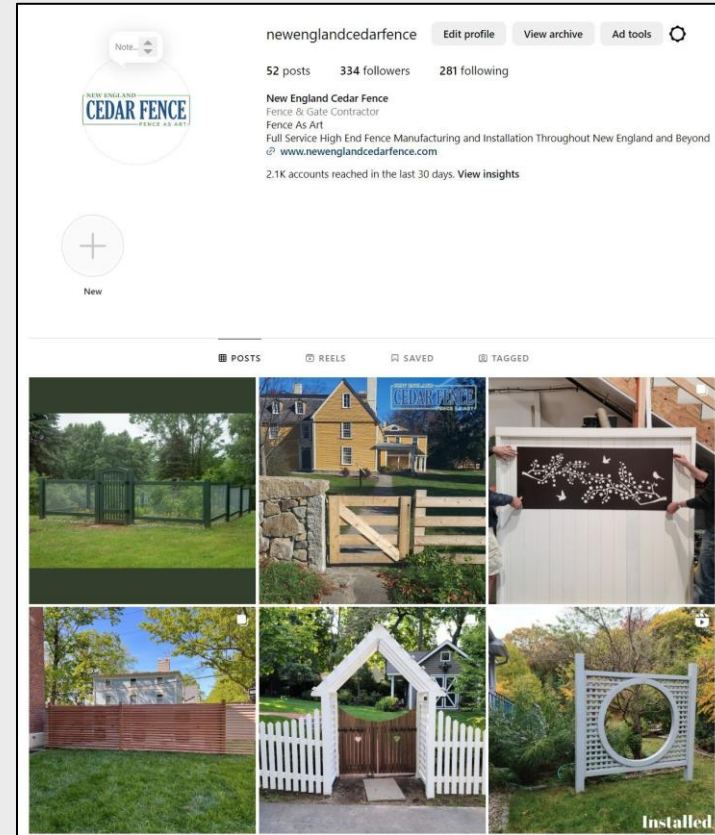

-Chris & Sarah, Portsmouth, NH
